

Recording Insight's Compliance Policy Engine Leverages the Power of Artificial Intelligence for your Compliance

Enhance your Compliance Coverage and Efficiency through Automation

Is your compliance team...

- bound by listening to hours of conversations, when reading the transcript would be faster?
- wasting time on conversations that turn out to hold no relevant compliance content?
- unable to cover all conversations, and all media?
- limited to a set of languages, with no available translations?
- required to go through the process of manually categorizing conversations?

If your answer to any of the above is yes, you want to leverage the power of Microsoft's Cognitive Services for your compliance.

Market-leading Compliance Functionality:

ASC curated compliance policies supporting regulations, e.g. MiFID II, Dodd-Frank, FINRA and HIPAA

Build custom compliance policies from categories, patterns and rules

Alarm any policy violation in any of your corporate conversations

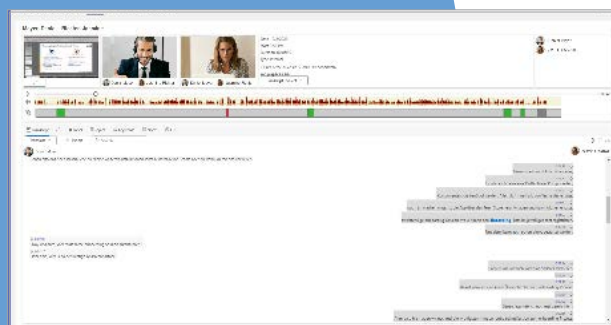

Embed policies into workflows to facilitate review processes

Protect compliance relevant calls in conversation safe

About ASC

ASC is a worldwide leading provider of software and cloud solutions in the field of omni-channel recording, quality management, and analytics. Among our target groups are all companies that record their communications, especially financial service providers, contact centers, and public safety organizations. We offer solutions for recording as well as AI-based analysis and evaluation of all communications – with full flexibility as a cloud service, on-premise or as a hybrid solution. Headquartered in Germany with subsidiaries in 13 countries and experienced system integration partners in over 60 countries, ASC is the #1 Europe-based player in its industry.
